

You'll build a more beautiful lawn with a Riding Aerator

Close-knit turf and healthier grass require feeding, air and moisture at the roots . . .

and healthier!

and the **GRAVELY** Super **TRACTOR**

HERE IS YOUR ANSWER TO ALL 3 PROBLEMS

GRAVELY . . . POWER AND PERFORMANCE vs DRUDGERY

RIDING . . . comfort is assured by contoured seat—spring supported

AERATOR . . . In Spring, prior to fertilizing
Summer, to trap moisture
Fall, preparing for dormant season

Ventilates the soil
air is necessary for healthy grass

Energizes the roots
fertilizers and nutrients give deeper benefits

Lawns are greener
velvety all season, helps avoid summer burn-out

Year after year

You'll build a more beautiful lawn with a Riding Aerator

and the **GRAVELY** Super TRACTOR

SPECIFICATIONS of **RIDING AERATOR**

- Width** — 32"
- Height** — to top of pan 14½"
to top of seat 26½"
- Discs** — 16 discs — 11½" diameter
- Weight** — 112 lbs. net
115 lbs. shipping weight
- Hitch** — Requires Gravely rear hitch and roller rest socket

DESCRIPTIVE FACTS

- Spike Teeth** — Beveled on one edge to permit reversing for either rough or smooth spiking. Light cultivation is also possible.
- Shaft** — Strong, heavy, cold rolled steel — is spring loaded to prevent tearing turf on turns. This feature also protects spike points by permitting discs to tip if they hit an obstruction.
- Roller Bearings** — Shaft is mounted in roller bearings, assuring smooth, long life operation. Grease fittings.
- Weight Pan** — This furnishes a convenient means of weighting for penetration to suit ground conditions.
- Frame** — Heavy, electric welded, angle iron construction.
- Draw Bar** — Heavy steel tubing. Torque tube construction permits rotation. This feature eliminates any twist or strain on the tractor.
- Seat** — Contoured, with rolled edges, for the extreme in comfort.
- Seat Spring** — Strong, resilient spring steel assures comfortable ride.
- Color** — Green and Beige.
